

Dr. Jason Jishun Hao

Dr. Jason Jishun Hao was among an early group of doctors who had the opportunity to learn directly from famous experts including Jiao Shunfa, the founder of Chinese scalp acupuncture, Yu Zhishun, professor of scalp acupuncture development, and Sun Shentian,

professor of scalp acupuncture research.

Dr. Hao has been practicing and researching scalp acupuncture for thirty years and has been teaching classes and seminars in the West since 1989. He has trained hundreds of acupuncture practitioners and treated thousands of patients with disorders of the central nervous system in the United States and Europe. He has taught scalp acupuncture seminars sponsored by UCLA, Stanford, and Walter Reed Medical Center, where he successfully demonstrated scalp acupuncture treatment of phantom limb pain for veterans. His case histories have been printed in the U.S. Army publication *Stripes*, in *China Daily*, and in *Alternative Therapies*.

Dr. Hao currently serves as the president of the Neuroacupuncture Institute and as co-chair of the NCCAOM Public and Professional Recognition

Awareness Taskforce. He is former chairman of NCCAOM's Acupuncture Exam Development Committee and former president of the board of directors at Southwest Acupuncture College. His most recent book, *Chinese Scalp Acupuncture*, was published in 2011.

Dr. Jason Jishun Hao

Chinese Scalp Acupuncture for Disorders of the Central Nervous System

Chinese scalp acupuncture (CSA) is a contemporary acupuncture technique integrating traditional Chinese needling methods with Western biomedical knowledge of the anatomy, physiology, and pathology of the cerebral cortex. Scalp acupuncture has been proven to be the most effective technique for treating acute and chronic central nervous system disorders. Scalp acupuncture often produces remarkable results with just a few needles and usually brings about immediate improvements.

Scalp acupuncture is frequently used in the rehabilitation of paralysis due to stroke, multiple sclerosis, automobile accidents, and Parkinson's disease. It is also used in pain management, especially in cases with central nervous system involvement, such as phantom pain, complex regional pain, and residual limb pain. It has been proven to have very effective results in treating PTSD, TBI, aphasia, ataxia, and Meniere's disease.

This course introduces CSA through didactic material, demonstration of techniques, and clinical experience for participants. The didactic material covers the anatomy and physiology of the brain and the scalp in order to show the location and indications of scalp acupuncture points. Demonstration and hands-on technique will be an integral part of the class.

The technique of scalp acupuncture is systematic, logical, easy to understand, and relatively straightforward to practice. **Chinese scalp acupuncture is more accessible, less expensive, entails less risk, can yield quicker responses, and causes fewer side effects than many mainstream treatments.**

If you wish you could do more to help patients with seriously debilitating central nervous system conditions, you will benefit from attending this course.

Learning objectives – At the conclusion of this training program, attendees will be able to:

- Understand the history, theory, and research of Chinese scalp acupuncture
- Master the locations, proper needling, and clinical applications of each scalp acupuncture area
- Design and execute special treatments for the disorders accessible to this discipline
- Improve their effective recovery rate for neurological disorders
- Help patients with even the most challenging and difficult conditions
- Add a new high-level skill and performance to their clinical acupuncture practice
- Recognize contraindications for the use of Chinese scalp acupuncture

Attention MAS Members:

MAS members are invited to participate in a lunch on Sunday, March 12th from 12:30-1:30 pm at the Sheraton Columbia. Get your Qi flowing while socializing with your colleagues!

SEMINAR INFORMATION

Location:

Sheraton Columbia Town Center Hotel
10207 Wincopin Circle
Columbia, MD 21044

Please go to www.SheratonColumbia.com for the lowest overnight rates available!

Lunch on Sunday for MAS Members Only.

Register on-line at
www.maryland-acupuncture.org
Information: Barbra 410.360.3534

Cancellation Policy:

Cancel by Feb. 10, 2017—75% refund
Cancel after Feb. 10, 2017—no refund

14 CEUs Available

(NCCAOM PDAs and CA CEUs pending)

Directions From Baltimore:

Take I-95 South to 175 West (Exit 41B). Travel five miles. After crossing over Route 29, move to the left lane. Go through five traffic lights. Immediately after the fifth light, make a left onto Wincopin Circle. Follow the street back 2/10th mile passing Lakefront Parking on the right. Hotel is on your right.
